MRA 2023 - INDUSTRIAL SAFETY

MRA - Industrial Safety is Thailand's leading platform that brings together all the latest cutting-edge products, innovations, services and technologies to improve workplace and industrial safety standards as well as to take your operations to the next level!

Bringing the health and safety together to the industry!

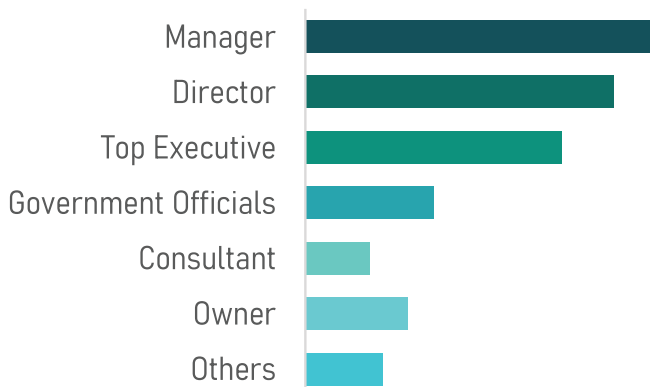

Rapid industrialization in the developing countries creates a huge requirement for safety tools at both personal and organizational levels, which in turn, drives the adoption rate of the industrial safety systems. Furthermore, increasing number of industrial accidents along with growing awareness regarding the importance and the benefits of safety measures plays a major role in the growth of industrial safety industry.

"Industrial Safety Market size was valued at \$3.2 billion in 2020 and it is estimated to grow at a CAGR of 8.56% during the period 2021-2026."
